

240-30/50 Banknote Bander

240-30/50 Benchtop Banding Machine

The 240-30/50 is a table top heat-sealing banding machine, with 30mm and 50mm width plain and printed tapes available.

Equipped with a simple banding tension control that allows you to adjust to the individual product, a patented tape guide allows for trouble free tape feeding and 'Auto mode' which allows you to place the product in position over the sensor and the machine will automatically band the stack of notes.

Also available is a foot pedal and an extra-large roll holder.
