

CMX02 COIN COUNTER

CMX02 Coin Counter

The CMX02 is a mobile heavy-duty coin counter, with an extended hopper. With its heavy duty and easy to use design it's the work horse of anyone looking to count coin.

The bigger hopper holds up to 10,000 coins, which can be processed thanks to its great speed in approx. 3 minutes. Despite its increased capacity you always have access to the coin disc in case a damaged coin is causing a jam.

CMX02 Functions

- Compact and easy to use machine with low requirement for maintenance
- Excellent performance and reliable construction
- Easy to read display
- PIECE, BATCH and VALUE count of pre-sorted coin
- CE certification

Options:

- Foot pedal
- External printer
